Another Great Year

Well, its that time of year again when we send out a little note about how our year went, and we try to pass on a little Christmas cheer. It was a good year for us, with no major problems and a lot of fun. We hope that you have had a good year, and we wish you a wonderful 2005.

Bob and Magalie Celebrate 10 Years

We toasted our first 10 years of marriage in France with a party at Eric and Murielle Blondeau's house. It was a warm and relaxing event with wonderful food, great company, and of course, great wine. Both of Magalie's brothers came and celebrated with us.

Annabelle is Baptized

We Baptized Annabelle at the same church that we were married, and that Chloé was baptized. The ceremony was touching and the meal with the family was very good. Magalie's brother Jean-Yves and his wife Chrystelle are Annabelle's God parents.

Magalie Turns 30

Thanks to the hard work of Gina Clancy, Kathy Malmberg and Magalie's loving husband, Bob, Magalie had a wonderful surprise 30th birthday party. There was a huge turnout and the party was a big success. It was hosted at Kathy's house and was a real French meal prepared by Kathy and Gina. Thank you to all who participated in this event. Magalie has wonderful memories.

Bob Becomes Project Manager

In September, Bob accepted a position as project manager for a new project at Northrop

Grumman. His new office is located in San Pedro, CA and he travels back to Melbourne, FL about every 6 weeks or so. Its a challenging position and Bob is working very hard.

Learning to Dance

Chloé has started a Hip-Hop class and Annabelle is taking ballet. They both love it and both are great listeners.

Chloé is also taking gymnastics where she shines above the rest!

No More Training Wheels!

We took the training wheels of Chloé's bike this year. She has started to be able to ride without them. She still likes to have us near her though because her balance is still developing. We are very excited and still practicing.

Chloé Starts Pre-K

Chloé started "Pre-Kindergarten" this year at her pre-school. It is a warm-up for kindergarten where they learn letters and numbers and they follow a schedule - just like kindergarten. Chloé is doing great
